TACTile Studio, Inc. Launches Sassy Snaps

Exclusive interchangeable jewelry allows for total customization.

Cleveland, OH – July 1, 2021 - TACTile Studio, Inc., a local online retail boutique, has launched Sassy Snaps; customizable and interchangeable jewelry and accessories that allow the wearer to coordinate and compliment any outfit, mood, special occasion, or theme.

“It was a team effort for Sassy Snaps to be born,” said Terry A. Cutlip, Owner and Artist behind TACTile Studio, Inc. “My client turned friend, Tiffany of Tiffany Green Photography and Designs, first approached me about using my digital pattern designs in this way. She spent time perfecting the process and then sent me a handful of the first snap buttons she made using my designs. I fell in love with them, but it was still a couple years down the road before we finally teamed up to give them a proper name and bring them fully to life.”

TACTile Studio, Inc. and Tiffany Green Photography and Designs are hosting an official online launch party via their individual websites to promote Sassy Snaps. There will be promotional pricing and each website has a variety of jewelry pieces and other accessories to choose from for your Sassy Snaps. The launch sale will be live from July 1 to July 7, 2021. While Terry and Tiffany did not create the concept of snap button jewelry, their Sassy Snaps are unique because they are created from 100% original patterns that cannot be found anywhere else. There is literally a Sassy Snap to match anything in your closet, any mood, any style - and they mix and match so well that there are endless combinations to choose from!

TACTile Studio, Inc. is a local Cleveland, OH based online retail boutique showcasing the art and graphic design works of Terry A. Cutlip. Ms. Cutlip has been in the creative sector for over two decades and has had her works enjoyed by nearly 100,000 clients worldwide in various formats. Tiffany Green Photography and Designs is based in Rocklin, CA. Ms. Green is a professional photographer serving the Northern California area and also creates handmade beaded jewelry and quilted items in addition to the Sassy Snaps.
